STANLEY CLARK MISQUOTES HISTORY

By request I offer the following:

Mr. Clark during his speech on the street a Saturday, made the statement that teachers are paid \$125 a month to teach socialism in the schools—a thing that was once denied to them even on the streets. To prove this he read an extract from Myer's Mediavial and Modern History. The condition of the inequitable distribution of wealth,

or labor problem set forth by Mr. Myers, the speaker read correctly and we all agree to a large extent. But when Mr. Clark pretended to read the last paragraph of Myer's history he began with the word, "That only under such a system as this—which would do away with the wage system, etc. Making it appear to his audience that the great historian taught this and that the teachers are teaching it today, as Myers is our basal history.

This is as false as mid-night darkness. The historian says in the beginning of the last paragraph: That the Socialist maintain that only under such a system, etc." which puts a different phase to the meaning, which Mr. Clark would have you believe.

Myers does not intimate that this is the only solution to the problem and when a public speaker plays upon the ignorance of his audience, when he knows better himself is a dangerous man; and is not worthy of the confidence of honest people.

Is City Liable for Johnson's Labor Claims?—Proposal to Lease Reservoir Draws Comment.

There was no lack of entertainment at the council meeting last evening, there being a show in full blast in a tent just outside of the building, and a dance in progress in the auditorium overhead. Indeed, the music was so entrancing at times, that even Ratliff and Ellison had difficulty in getting themselves heard as they gave vent to their opinions.

Like Banquo's ghost, the waterworks row will never down. In the discussions of last evening it was brought out that Johnson lacked some \$500 of providing for all claims for labor against the line, and that all any one knew about it was that he and his attorney claimed that they had paid out all the money turned over to them by the city. City Attorney Webb gave it as his opinion that the city itself would have to pay these claims, unless Johnson or his bonding company could be made to settle. A resolution was offered that the matter be taken up with the latter at once.

The committee having in hand the proposition of the Ada Country Club to lease the reservoir, after adding some additional amendments further defining and safeguarding the rights of the city made a favorable report. As the matter now stands the city would get \$100 per year for the use of the reservoir, would have its rights to the water unimpaired, and have full police and sanitary powers over it. The Club offers to build a good fence around it, keep everything in repair, erect necessary buildings, and at the end of five years, or sooner under certain conditions, return it to the city on payment of an agreed price or at the end of ten years give

STOVES SMITH'S 203-5 W. Main St.

the improvements to the city. R. S. Tobin vigorously assailed any proposition looking to the lease of the property, and was replied to by E. H. Lucas. The aldermen then took a hand, Ellison and Floyd combatting the plan and Ratliff, Timberlake and Ebey favoring it. Ellison tried to postpone indefinitely but was defeated by a vote of 4 to 3. He then offered a motion to submit the question to a popular vote, the club to put up the expense of holding the election.

Finally a substitute offered by Ebey to the effect that a contract be drawn in accordance with the report of the committee and submitted at the next meeting of the council, and that the country club be represented by a committee with power to act.

It was voted that the street commissioner should grade Johnston and Cherry streets, provided that ward of the city has funds sufficient for the work.

The News is requested to announce that the biggest badger fight of the season will take place at the Rock livery barn promptly at 8 o'clock this evening. Betting is said to be brisk, with odds slightly in favor of the badger.

MAINE WILL REMAIN DRY

CORRECTED RETURNS GIVE PROS MAJORITY OF 758 VOTES.

Augusta, Maine, Nov. 6.—Maine retains constitutional prohibition.

Gov. Plaisted and his council late tonight decided to accept the corrections in the vote of four towns cast in the special election in September, thus reversing the result as indicated on the face of the first official returns.

Returns on election day Sept. 11, indicated a majority of about 300 against the repeal of the prohibitory amendment, but later the official count showed a majority of 26 for repeal.

Comparison of Figures.

It was found by comparison, however, that in four cases the figures of the Town Clerks were reversed from their early returns and in each case the Clerks claimed the error to be in the official figures.

After hearing on the subject the governor and council took the matter under consideration and the result was the announcement tonight that Maine retained constitutional prohibition by 758 votes.

Gov. Plaisted at the conclusion of the meeting said that an early date, probably in February, he would call a special session of the legislature to "submit an amendment to the constitution which will permit the enactment of laws concerning the liquor traffic, which are capable of honest enforcement because sustained by the sentiment of the several communities to which they will be applied."

An analysis of the vote, the governor declared, showed an overwhelming majority against prohibition in the cities and a large majority for it in the towns.

"There is no question about the desire of the cities," the governor concluded, "to improve conditions by adopting some other method in dealing with the liquor traffic. An amendment to the constitution should be submitted to the people to be voted upon next September, under the terms of which the cities should have the right to invoke and enact local legislation within their limits."

TRAINS COLLIDE NEAR DOUGHERY

Dougherty, Okla., Nov. 7.— (Special)—At 12:30 this afternoon passenger trains on the main line of the Santa Fe met in head-on collision a short distance south of here, badly wrecking both trains. Any erroneous reflection on the character, standing or reputation of any person, firm or corporation which may appear in the columns of The News will be gladly corrected upon its being brought to the attention of the management.

NOTICE TO THE PUBLIC.
For the convenience of the public, the Evening News will hereafter be on sale at the Post-office News stand for the small sum of 2c. The same rate will prevail at the News office. This is less than the actual cost of the paper, and it is impossible to make the price any lower. The publishers would like to give it away, but every paper costs money to print, and if it is worth reading at all, the News is certainly worth the small sum asked for it.

An Invention That Would Pay.

A nervous reader of the News, who has suffered much from the fiend who always leaves the door open in cold weather, suggests that a fortune awaits the man who perfects an automatic welder of a stout slippery elm club that shall come down with trip hammer force on the head of said fiend when he forgets to close the door.

Just now the Tulsa World, McAlester News-Capital and Oklahoma City Times are discussing a weighty question—which is the only simon-pure republican paper, untainted with the virus of insurgency. No use in fussing, boys, for the republican pie counter will soon be only a tender memory, anyway, and all republicans will look alike when the democrats take hold and begin dishing out the pie to the hungry members of the party.

THE VIADUCT QUESTION.

The city is face to face with the question of better connection with the Dan Hays and Ford additions on the east side. With the building up of that section of town it becomes imperatively necessary to connect it with the main portion, and the question arises, how is it to be done. An effort to relieve the situation by constructing a viaduct at the end of 12th street, but it is practically worthless for the simple reason that it is too steep to climb with any degree of ease, and no one uses it, if he can possibly avoid it.

Some have proposed two or three viaducts further south, but it occurs to us that it would be better to have one broad concrete structure 50 or 60 feet wide, built at some convenient street, rather than two or three flimsy structures. In other words, while about it, build one that will answer for all time to come, no matter how heavy the traffic may be.

A large share of the traffic coming to Ada is from the east side. With the trains continually switching at the depot crossing, many exasperating delays occur, and the road is likely at any time to do damage that would more than pay for a viaduct.

Judge Barton, wife and son will leave tomorrow for the Kiamichis where they will spend a few days in camp hunting. The county commissioners granted the judge a vacation period during the summer, but owing to the press of business in his office, he did not take advantage of it. Now, however, he has things so arranged that Mr. Sims and Miss Campbell can handle the details of the office, while he takes a few days of solid comfort in the mountains.

TO GET RID OF RHEUMATISM

If we suffer with Rheumatism and desire to get rid of it we must make up our minds to subject our systems to the proper course of treatment for a while. The only way to cure oneself of Rheumatism is to remove the cause—expel the irritating uric acid from the blood; every other method of treatment has proved a failure. S. S. S. cures Rheumatism because it is the greatest of all blood purifiers. This medicine goes down into the circulation, and expels every particle of the sour, inflammatory uric acid which is the one great cause of the disease. The cure can be greatly hastened with a little care and self denial by the patient. In the first place do not let anything interfere to prevent your taking S. S. S. regularly and according to directions; be guarded in your eating, because an attack of indigestion will always aggravate the symptoms of Rheumatism. Do not expose yourself to damp and inclement weather any more than is necessary. When S. S. S. has had time to rid the blood of the uric acid; then these little restrictions may be left off. This simple course has cured many thousands of cases of Rheumatism. Book on Rheumatism and any medical advice free. S. S. S. is sold at drug stores. THE SWIFT SPECIFIC CO., Atlanta, Ga.

MRS. DWYER PLEADS HER INNOCENCE

Shawnee, Ok., Nov. 6.—Mrs. Nathan Dwyer, formerly Mrs. Tom Boyd, of Earlboro, is locked up in the county jail on a charge of murder accessory in the killing of her husband last April. She entered a plea of "not guilty" when arraigned this morning in Arrest Caused Great Sensation.

Mrs. Dwyer's arrest caused a great sensation not only at her recent place of residence, but throughout the county. Boyd was shot down in front of the county court and was committed to jail without bail.

The postoffice in that town by Hershel Barrett. Boyd died almost instantly. Barrett was arrested and later released on bond. He will be tried next week in the district court on the charge of killing Boyd.

Rented Farm of Slayer.

Boyd was a renter of Barrett's for a year previous to the killing. It was a matter of common discussion in Earlboro, it is said, that Boyd had frequently chided his wife for her friendliness toward Barrett, who is a widower. It is stated that the men frequently quarreled over the affair.

Boyd Made Threats, Reported.

Boyd moved from the Barrett farm about a year ago. In the settlement over the crops raised by Boyd, the latter believed he had been deprived of his rightful share of the profits. The men quarreled over this matter. Boyd is said to have made threats against Barrett and on the day of the killing he was tried in justice's court for some traval offense. He left the justice office and the killing followed a short time afterwards.

Says She Is Innocent.

Mrs. Dwyer refused to make any statement when seen today other than to say that she was innocent and that when the time came she would have little difficulty in proving her innocence.

publican to the core, and regardless of what Wall street talks about now, there is little doubt that what it is thinking about is the possibility of a tariff cut by the democrats. To forestall this menace the billionaires are stirring up the old cry of "danger to business," and getting ready to make their usual attempt to coerce another stand pat republican victory a year from now.

The tariff is still the issue on which the two parties must fight it out next year. Knowing this, Wall street is already laying plans, and since the only weapon these money barons know how to use, since they have neither facts nor justice to aid them, is the threats of slack business. Their present wails simply are practice stunts to get the old bogey in working order for the coming campaign.

FRISCO WILL ESTABLISH DEMONSTRATION FARM

It is announced that the Frisco railroad will establish demonstration farms at Ardmore, Bennington and Ada. It has not been given out yet just what the plan is in reference to Ada, but the move should have the hearty co-operation of every citizen. The road has already sent some samples of grass seed to P. A. Norris and Henry Young, who will experiment with them, and if the farm is located near Ada, its progress will be watched with keen interest.

This announcement is all the more welcome in view of the fact that many of Pontotoc county's farmers will during the coming year conduct their farming operations under direction of the government demonstration agent A. L. Kennedy. That scientific methods pay, is being demonstrated by P. A. Norris, whose cotton near town, raised under the directions of the department of agriculture, will yield in the neighborhood of a bale per acre, in spite of the unfavorable season.

Now the next step will be a few lessons in diversification taught by the Frisco and the farmers working under government direction.

JUDGE M'KEOWN MAKES IMPORTANT RULING

Oklahoma City, Nov. 6.—"That the clerk of the court seal the papers, separate them from the files of the office and at the expiration of six months destroy them by fire."

That was the order made by Judge Tom D. McKeown of Ada, assigned to Oklahoma City by Chief Justice John B. Turner to hear the case of P. M. Sullivan against the members of the supreme court, the Oklahoma county district judges and about twenty other state and county officials. The order was given Monday morning following arguments of counsel for the defense on demurrers and motions to strike and it fully relieves Judge Sullivan of the necessity of giving further attention to that particular case.

Probably nowhere in the annals of jurisprudence has the local action a counterpart. Sullivan, now under investigation for sanity, conceived the idea that the supreme court judges, the district judges and other prominent officials had entered into a conspiracy to "judicially rob" him of property lying in Oklahoma county and valued at \$23,000.

In addition to the property he asked \$250,000 damages. The petition was particularly vindictive and attacked not only the courts but those of smaller importance named as defendants. With it was filed a small book purporting to give a history of the action, but in reality it was only a repetition of the assaults contained in the petition.

The supreme court, represented by C. B. Stuart, B. F. Burwell and Henry Gray, counsel for the district judges and several other defendants, demurred to the petition and were sustained. Attorney Gray then filed a motion that the entire pleadings be stricken from the files because "they were scurrilous and indecent," which resulted in the order of Judge McKeown to Clerk Tom Kirby to seal them, preserve them for a period of six months and then burn.

Judge Sullivan appeared in the courtroom but a short time Monday. He entered objections to Chief Justice Turner assigning a special judge to try the case, read a report in which "anarchy" was used, made a few other remarks of a similar character and withdrew. He stated he would not be further identified with a proceeding so flagrantly illegal. The court permitted his remarks to go without reprimand and advised the other lawyers to proceed.

NOTICE TO TAXPAYERS

I have notified each taxpayer in the county the amount of his 1911 personal tax, on account of my time being limited it will be impossible for me to get out any more individual notices, so I take this means in giving further notice.

Please make out a list of your property, if you own lots, give number of lot and block, name of town they are in and if in any addition to the town give the name of the addition. If farm land, copy the description from your deed, giving what part of the section, the section number and township and range.

If you fail to call for all your property, and don't pay all your tax it will be your fault and not mine for it is impossible for me to know what you own.

You can help me by knowing where your property is and it won't take me so long to serve you.

Help me and I will help you by giving you quicker and more accurate service.

All taxes were due Nov. 1, if 1-2 is paid by Jan. 1 other will run to June 15, but if 1-2 is not paid by Jan. 1, the whole becomes delinquent and draws a penalty of 18 per cent per annum from date of delinquency until paid. Paying tax went delinquent Sept. 1. Sewer tax will go delinquent Dec. 15. Look after your tax.

Yours truly,
RIT ERWIN, Co. Treas.

ANDY CHAPMAN EAST MAIN

FIRST NIGHT OF THE CARNIVAL

The Firemen's Carnival was inaugurated Monday evening amid a blaze of multi-colored electric lights, lively band music, the song of the merry-go-round, and the din of the Ferris wheel bell. Mingled with these sounds were the strident voice of the "speller" the call of the lemonade man, and the high pitched tones of the girls at the Hoopla.

The shows are brightly lighted with incandescent lamps, as is also the merry-go-round, several large lights supply additional brightness for the scene.

For a first night the attractions were well patronized. The merry-go-round did a rushing business. Some of the attractions did not get open on account of the late arrival of the show but Manager Rice promises to have every thing in full blast tonight. The free acts were also unable to get ready but arrangements have been made to put them on tonight.

A feature that attracts considerable attention is Leo, the cigarette fiend, mere living skeleton. In this department are several other interesting attractions including the huskies, or Arctic sled dogs. Another show of exceptional merit is the wild animal show located at Twelfth and Broadway. This attraction is without a doubt the best show of its kind ever brought to Ada and a performance every body should see.

This show was well patronized. The educated mules are genuine treat in horse training; the old Plantation was another attraction well patronized and is the best show of its kind ever here with a carnival company. Taking it all in all, Rice & Woods have a good clean show and worthy of the patronage of all. Mr. Coleman, one of the managers has assured the firemen that there will be no show but what any lady or child can attend in perfect propriety. The carnival will last the entire week, closing Saturday night and will be open afternoons and evenings. With good weather, it should prove a big success. If the first night's attendance is any indication, thousands of people will visit the grounds during the week.

A splendid band is carried with this company which renders a program of musical selections that is a treat. Taking this company all in all it is the biggest and best shows of its kind ever in Ada.

The regular November term of district court convened this morning with Judge McKeown on the bench. The day was devoted to passing upon motions and civil cases, and considerable progress was made in clearing the docket, some forty cases having been disposed of in various ways.
